

TECHNICAL DATA

GB WORKSHOP BRAKE CLEANER

APPLICATIONS

GB WORKSHOP BRAKE CLEANER is a blend of alcohols and solvents, formulated to remove grease, oil and dirt, whilst minimising the harmful effects of brake dust. It can be used on drum and disc brakes, brake linings, brake pads, brake shoes, brake cylinders and brake callipers.

PERFORMANCE FEATURES

GB WORKSHOP BRAKE CLEANER offers the following features:

- Cleaning and degreasing properties
- Suppression of brake and clutch dust
- Reduced brake squeak
- Fast evaporation to reduce down time

SPECIAL HANDLING PRECAUTIONS

Refer to the Material Safety Data Sheet before using the product.

GB WORKSHOP BRAKE CLEANER

STORAGE AND HANDLING

GB WORKSHOP BRAKE CLEANER should be stored under cover to avoid water collecting in the rim of upturned barrels.

HEALTH, SAFETY AND THE ENVIRONMENT

GB WORKSHOP BRAKE CLEANER is classified as hazardous under current UK Health & Safety and Environmental Legislation and should only be used in the application for which it is intended.

For guidance on storage and handling of all lubricants and related products, GB Lubricants recommend the Environment Agency, www.environment-agency.gov.uk, as an excellent source of advice.

If you have any queries, please do not hesitate to contact either your local Technical Sales Representative or our Technical Department.

The Company policy is to ensure that a range of products is supplied which complies with the latest specifications and codes within the relevant industry. As part of this development process, we therefore reserve the right to amend formulations and specifications, without prior notice.
