

TECHNICAL DATA

GB AEROSOL RANGE

The GB AEROSOL RANGE consists of four products:

GB MULTIPURPOSE SPRAY

GB MULTIPURPOSE SPRAY is a premium product containing PTFE and extreme pressure additive that, when used on metal surfaces, cleans, displaces moisture, penetrates, lubricates and provides corrosion protection. It dries out wet ignition systems, stops squeaks and loosens stuck parts, whilst providing protection against future corrosion.

GB BRAKE & CLUTCH CLEANER

GB BRAKE & CLUTCH CLEANER is a blend of high penetration solvent cleaners, which provides a speedy and effective removal of dirt, dust, grease, brake and clutch fluids from drums, shoes, discs, callipers etc. It can also be used for degreasing metal surfaces, and is especially effective for degreasing motorbike and fork truck chains.

GB FLEXY SHIELD

GB FLEXY SHIELD is formulated for all exposed gears, wire ropes and moving parts and will not be thrown off during use. Its exceptional penetration and water-resistant properties make it ideal for applications such as exposed heavy duty chains and steel cables, and any situations where constant weather exposure is experienced.

GB WHITE GREASE

GB WHITE GREASE is formulated for lubricating bearings, brake linkages, latches, cams, window regulators, hinges, gears, spring wires and cables. The addition of PTFE helps prevent further seizing up as well as leaving a protective coating against rust and corrosion.

STORAGE AND HANDLING

The GB AEROSOL RANGE is supplied in 500ml aerosols and the instructions below should be followed:

- Keep away from flames or spark or ignition sources
- Do not smoke
- Keep out of the reach of children
- Use and keep in well-ventilated areas only
- Avoid contact with skin and eyes
- Do not spray for long periods
- Protect from the sun's rays
- Do not expose to temperatures above 50°C
- Do not pierce or burn, even after use
- Do not spray towards a flame or incandescent materials

HEALTH, SAFETY AND THE ENVIRONMENT

Further information on the GB AEROSOL RANGE can be obtained by referring to the corresponding Material Safety Data Sheet.

For guidance on storage and handling of all lubricants and related products, GB Lubricants recommend the Environment Agency, www.environment-agency.gov.uk, as an excellent source of advice.

If you have any queries, please do not hesitate to contact either your local Technical Sales Representative or our Technical Department.

The Company policy is to ensure that a range of products is supplied which complies with the latest specifications and codes within the relevant industry. As part of this development process, we therefore reserve the right to amend formulations and specifications, without prior notice
