

New & Improved Whichoil? Lubricant Lookup:  
**GUIDE TO THE LATEST UPDATE**

**LUBRICANTS**

***The New & Improved Whichoil? lubricant lookup, is designed to make the selection process for oils, greases and lubricants as simple as possible. There have been several changes to the platform which offer detailed information on a wide selection of vehicles and machinery.***

***This guide has been created to demonstrate the updated layout and explain the new features in more detail.***

Welcome to GB Lubricants' WhichOil. To find the correct oils, & lubricants you need, enter the vehicle registration number for your car, motorcycle, van, truck, lorry or HGV. Click the correct icon in the yellow bar before entering a registration number. Alternatively, use the search tool and enter the make and model to identify your vehicle or machinery. You can also select a product category and use the dropdown menus below to refine your search.

## There are three vehicle search options available:

Vehicle  
Registration  
Number (VRN)  
Location  
Selector.

Select your vehicle  
icon, then enter your  
car, motorbike, van,  
truck, lorry or HGV  
registration number.

Search a vehicle or machine  
by make and model, by  
entering a few keywords,  
E.g. (Ford Focus,  
John Deere, Scania).

      | ENTER YOUR REG 

 SEARCH BY MAKE AND MODEL 

Select a product category then use the dropdown menus to refine your search

Cars

Light commercial  
vehicles (< 7.5t)

Trucks and Buses (>  
7.5t)

Agricultural Vehicles  
and Equipment

## Your vehicle

**BMW (EU)**

2 series, F22 / F87  
218i PF  
2018 - 2019

Drive Type ..... RWD  
Fuel .....  Petrol  
Engine build ..... Line  
Cylinders ..... 3  
Valves per cylinder ..... 4  
Displacement ..... 1,499 cc  
Power rating ..... 136 hp / 100 kW

You will then see a results page with a branded image of the vehicle you are searching for.

Please note:

If you are searching by vehicle registration the vehicle in the picture will not necessarily match the vehicle's colour or body type.

### Viewing products for this vehicle component

Navigation bar showing vehicle components:

- Engine B38
- Differential, rear
- Transmission, automatic ZF GA8HP 8/1
- Transmission, manual, with MTF-LT3 label Getrag GS6-17BG/DG 6/1
- Hydraulic brake/clutch system, DSC
- Co

You will then have a selection of products for each component. You can click the individual component names (Engine, Differential, Transmission, etc). You can use the arrows at each side to show all component options available.

### Recommended products

Usage: Flexible (max)

#### Capacity

Capacity ..... 4.25 litre

#### Interval

Change Every ..... 18,800 miles

Or every ..... 24 months

 **TURBO SXV 5W-30** [↗](#)

Please speak to GB Lubricants technical team on Tel (0191 490 4312) or email [gblsales@gb lubricants.co.uk](mailto:gblsales@gb lubricants.co.uk)

If product information isn't available, a message will appear providing a contact telephone number and email address for the user to discuss in more detail with the GB Lubricants Technical Support Team.

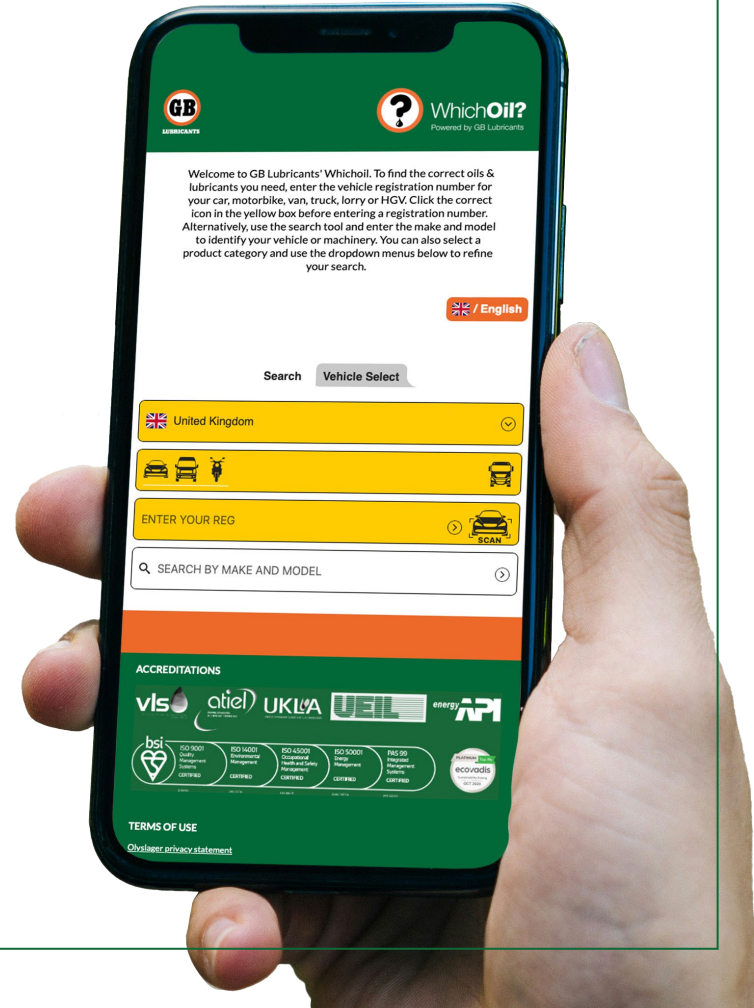

A new additional feature for mobiles is the ability to scan a vehicle registration number via a phone's camera, to provide the product information. This works in the same way a user would manually type a registration in the search box.

Simply press the 'Scan' button on the right-hand side of the box and the user's camera will open on their phone allowing them to take a photo of the vehicle's registration.

The user will then need to press 'OK' for the system to scan the image for a vehicle registration. If the photo is not clear or blurred the user can press 'Retry' to take the photo again.

The system will then produce the recommended oils, grease and lubricants for the user to select from.

N.B – As with the manual vehicle registration search the vehicle in the picture will not necessarily match the vehicle's colour or body type.

### Mobile Menu View:

Users can switch from 'Search' and 'Vehicle Select' tabs.

In the 'Search' tab users can either 'Scan' the vehicle registration with their camera phone or select your vehicle icon and type the reg, make or model into the search bars.

In the 'Vehicle Select' tab users can click the arrows and use the dropdown menus provided.

The screenshot shows the mobile app interface in the 'Search' tab. At the top, there is a green header with the GB Lubricants logo on the left and the 'WhichOil?' logo with the tagline 'Powered by GB Lubricants' on the right. Below the header, a white text block contains the following instructions: 'Welcome to GB Lubricants' Whichoil. To find the correct oils & lubricants you need, enter the vehicle registration number for your car, motorbike, van, truck, lorry or HGV. Click the correct icon in the yellow box before entering a registration number. Alternatively, use the search tool and enter the make and model to identify your vehicle or machinery. You can also select a product category and use the dropdown menus below to refine your search.' To the right of this text is a small orange button with a UK flag icon and the text '/ English'. Below the text is a navigation bar with two tabs: 'Search' (which is active) and 'Vehicle Select'. Underneath the navigation bar is a yellow section with a UK flag icon, the text 'United Kingdom', and a dropdown arrow. Below this is another yellow section with icons for a car, motorbike, van, and truck, and a car icon with the text 'SCAN'. Below that is a yellow section with the text 'ENTER YOUR REG' and a dropdown arrow. At the bottom of this section is a white search bar with a magnifying glass icon, the text 'SEARCH BY MAKE AND MODEL', and a dropdown arrow. The bottom of the screen features a green footer with the text 'ACCREDITATIONS' and logos for vls, atiel, UKLQA, U3L, and energy API.

The screenshot shows the mobile app interface in the 'Vehicle Select' tab.
